MAX. TEACHING (Max. sensitivity adjustment)

ONE-POINT TEACHING

TWO-POINT TEACHING

POSITION TEACHING

FGS TEACHING (FGS is a function that detecting range can be adjusted as desired, out of the range is suppressed.)

- Note :
1. Releasing the button the indicators simultaneously blink 1 time, the switching point is not stored (Exclude the second point teaching)
 2. In case of teaching error, the sensor is automatically reset, and function with the previous state.
 3. Depending on the object or distance, ONE-POINT/POSITION TEATING is not taught for Mark-detection type.

2)REMOTE TEACHING

Connecting the gray lead to 0V for NPN models (PNP to +V), remote teaching can be done without pressing the button. Same as the button operation, the teaching mode can be determined depending on the pulse duration.

3 CAUTIONS

- Be careful not to install the sensor at the following locations, as it may otherwise malfunction.
 - Where a lot of dust, vapor, or the like is present.
 - Where corrosive gas is produced.
 - Where water, oil or the like flies directly onto the sensor.
 - Where strong vibration or shock is caused to the sensor.
- Do not use organic solvent, such as thinner, to remove contaminants from the body case, lid, and lens which are all of plastics. Using a dry rag, just wipe clean.
- When a switching regulator is to be used with a power supply, be sure to ground the Frame Ground Terminal.
- Do not use the sensor in a transient state at power on. (about 100ms)
- Do not run sensor cable near a high-voltage lines, or power lines or put them together in the same raceway. This warning should be strictly observed to prevent malfunctions caused by inductive interference.

⚠ **Must not use this item as safety equipment for the purpose of human body protection.**

4 TEACHING PROCEDURE (SENSITIVITY ADJUSTMENT)

1) Depending on the pressing duration of TEACHING BUTTON, the teaching mode can be determined.

- * Sensitivity is set at Max. in default state.
- * FGS teaching is only BGS.
- * Transparent model is only 1point teaching.
